The Protruar is equipped with a brushless 1.0/2.0/3.0 12V or 24V motor and is excellent for the propulsion of a wide range of boats and waterways. This powerful motor is equipped with step-less adjustable speed control and a safety lanyard. The motor can easily be tilted in and out of the water and the trim height is adjustable by way of a quick lock, so you can motor in virtually any water. The Protruar models also features an LED battery level indicator. Suitable for both salt and fresh water.
